

# Sports Medicine Clinic of North Texas

**F**rom professional athletes to weekend warriors with kids who play sports, the Dallas area can now look to the expert health care services offered by Dr. J. Scott Quinby and Dr. D. Okey Ozumba of the Sports Medicine Clinic of North Texas. These fellowship-trained sports medicine orthopaedic surgeons provide comprehensive evaluation and management for a variety of sports-related

injuries with the latest arthroscopic and reconstructive techniques. They strive to provide the highest quality-of-care, from diagnosis through rehabilitation, for patients with a wide-range of orthopedic problems.

Privileged at Dallas' new, state-of-the-art hospital, Pine Creek Medical Center, Dr Quinby and Dr Ozumba have the benefit of advanced surgical operating room technology. Committed to the personalized delivery of

care, Pine Creek Medical Center employs the latest in state-of-the-art surgical imaging, surgical environment control, and communications technology.

Unique to the Sports Medicine Clinic of North Texas is the Sportstrak © appointment system. This enables acutely injured athletes to be seen within 24 to 48 hours after their injury. Because time is a crucial factor in the way a sports injury heals, the physicians are committed to quickly communicating their findings and recommendations to patients, their parents, referring physicians, coaches, trainers, and therapists so that a return to activity is safe and expeditious.

The key to the clinic's success in such a fast-growing, competitive field is the extensive training and expertise of its physicians. Dr. J. Scott Quinby brings patients advanced arthroscopic and reconstructive techniques for the knee, shoulder, hip, and ankle, as well as general orthopedic surgery. Dr. Quinby a Dallas native, is a graduate of UT Southwestern Medical School. He completed his orthopedic residency at Northwestern, followed by a fellowship in orthopedic sports medicine and shoulder surgery at the University of Virginia.

Dr. D. Okey Ozumba offers his patients advanced reconstructive and arthroscopic treatments for shoulder, elbow, knee, and hip injuries. He has a special interest in shoulder arthroplasty and the treatment of shoulder and knee disorders using minimally invasive techniques, which facilitates faster recovery time. Dr. Ozumba completed his M.D. and residency at UT Southwestern Medical School. He was a Fellow in sports medicine and shoulder surgery at Duke University.

J. Scott Quinby, M.D. and D. Okey Ozumba, M.D.
